

# 5 REASONS TO GET INVOLVED

## Work for real change

Influence real policy change, further drug education and promote harm reduction

## Bring students' voices to the debate

Bring a student voice to everything from your campus drug policy to national policy debates

## Develop a range of skills

Develop and use skills in political advocacy and harm reduction education

## Networking opportunities

Make connections with professionals in research, public policy and health education

## Be part of practical harm reduction

Be part of real change in harm reduction and public policy reform
